MAIL BID LIST #16

CLOSING

MAR 13 1988

A good selection can be found in this sale, but its preparation seems to have been more complicated than usual and has required considerable time. There are two sections of modern **Silver Medals** for U.S. and World collectors. Look for scarcities among listings for **Mexico, Puerto Rico and Honduras**. Several consignments constitute good selections of **French** as well as **German** tokens. Among the latter you will find early **Flottengeld** and **Colonial** pieces. A **Washington and Fanning Islands** token is also available. Among the **Transportation** tokens there is a curiosity from India. A new category, **Coin Weights** has been added for this sale in which there are some very early pieces.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". FP means that several pieces are available and sell for fixed prices only. Grading can be only approximate in a series as varied as tokens. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind.

From time to time more than one specimen of a lot is submitted on consignment. This happens with less than 1% of the lots, and mainly with items selling under \$10. Rather than list each such item, I will offer the other specimen at the winning bid price if it is the same grade and the second bid is within 15% of the top. If the grade is lower, the price will be adjusted. You are under no obligation to purchase in such a case. Comments on my listings and methods of operation are always welcome.

Three New Books

GERMAN TOKENS: Part II by Jerry F. Schimmel. This English-language work includes **German Colonies: Southwest Africa, East Africa, Kiauchau, Cameroon, New Guinea and Colonial Naval Tokens**. The colonial section has been completely researched and documented. Also found are sections for **Austria, Luxembourg, Switzerland** and several other areas of the world. Each piece is priced in US Dollars. Illustrations, Index and Translation word list are included, 158pp paperback. **Price: US\$16**. Postage included for the U.S. at Book Rate or overseas at Surface Mail Rate. Add \$4 for Air Mail to Europe, Australia add \$5. Will be shipped around March 15. Discount prices available for multiple purchases.

(Auf Deutsch) **Deutsche Marken und Zeichen: Band II** von J. Schimmel auf Englisch. **Deutsche Kolonien: "Südwest", Ostafrika, Kamerun, Kiautschou, Neu-Guinea, Flottengeld der Kolonien**. Auch **Österreich, Luxemburg, Schweiz u. andere Länder**. Preise in US Dollars. Abbildungen, Umschriftregister und Englisch-Deutsches Wörterverzeichnis. **Preis: US\$16**. Seepost gratis, Flugpost US\$4.

TOKENS OF THE COFFEE PLANTATIONS OF CHIAPAS STATE, MEXICO (Fichas De Las Cafetaleras De Chiapas) by Claudio Verrey C. A brand new book by a young Mexican collector. Fifty pages with card cover includes photos of all tokens, rarity scale, some history. Presents the first public listing of the Guatimoc series. Tokens listed in the work are frequently mistaken for Guatemala and El Salvador so it is a vital

reference for all Latin-America collectors. In Spanish, but Translation Word List is enclosed along with U.S. Dollar valuations. Price: US\$12.50 postpaid in USA or Surface Mail overseas. Europe Air Mail add \$2, Australia \$2.50.

CATALOG OF NETHERLANDS TRADE AND ADVERTISING TOKENS (Catalogus Van Nederlandse Betaal- En Reclame Penningen) by A.J. Kooij, Second Edition Revised 1987. Mr. Kooij has expanded his earlier work of all types of Dutch tokens to 296 pages, all illustrated and priced in Dutch Guilders. This is nearly four times the size of his earlier work. In Dutch with English and German Translation Word Lists. Price US\$26 postpaid in the United States. European collectors should contact Mevius Numisbooks, Oosteinde 97, Vreezenveen, Netherlands.

MAIL BID SALE RULES AND TERMS

- The sale closes at 7 p.m. Pacific Time on the date noted above or until 15 minutes pass with no telephone bid. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
- Bids under \$3 are respectfully declined. Bids must be in U.S. Dollars.
- Winning bids over \$50 will certainly be reduced to a 10% advance over the next highest bid, or its Minimum Bid. Below \$50 reductions will be made where possible and based on my judgement. In general the 10% guideline will be followed. The maximum reduction will be 50% in any case. Bids will not be reduced under \$10. In general terms acceptable bids will be those that are at least 60% of the estimated value.
- Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. Most California residents must pay 6.5% Sales Tax, some only 6%. Overseas customers must accept responsibility for postal delivery.
- Prices Realized: please order them when you submit your bids. Do not send payment. I will include the cost with your bill, 80c per copy.
- Lots may be returned within 10 days of their receipt only if there is a major error in the description or in the material sent. Please check the shipments for such and keep a copy of the bids you submit. Please pay within 5 days.
- Lots Made Up of Multiple Pieces: In most cases these consist of items which are a) very common, b) badly worn or damaged, c) struck after 1950, d) of little collector interest or e) all of the above. Please bid accordingly. I try to describe them as much as I can afford the space, but because of their nature descriptions have to be limited.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone and current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify.

MAIL BID LIST #16

Prices Realized

The top selling token was the German Naval Token **S.M.S. Geier** from the old German South Seas which sold at \$325 (#677). Two other German Naval Tokens also passed the \$100 mark, Nos. 678 and 679, the **S.M.S. Konigsberg** and **S.M.S. Victoria Louise**. Among USA issues the New Mexico black fibre Sales Tax Token held its auction level at \$114 (#10). Two Puerto Rico pieces, the Central Rochelaise (#212) and Avelino Gonzalez (#222) sold at \$132 and \$165 respectively. The Honduras Sample Bank Token (#265) sold for \$193.

Three lots tied for receiving the most bids - ten apiece: #58 Bismark Saloon, identified as Texas \$73; #117 a Netherlands silver medal on poultry and birds \$12; and #217 the Hacienda Vega Redonda wholesale lot \$22.

Lots not listed received no bids or else were too low for consideration. Sales prices are given in amounts rounded to the nearest dollar although in many cases actual bidding may have been somewhat above or below that amount. Figures in parentheses are the number of bidders for any given lot.

ROPE COIL

Back in the 1960's Elwin Leslie identified the above five tokens in the journal, *Plus Ultra*. The Santa Juliana Mining Company worked its sites near the tiny town of Jesus Maria high in the Sierra Madre Occidental mountains of Mexico on the state line between Sonora and Chihuahua west of Chihuahua city (280 45°/ 1050 32°). The mines were for silver, although gold was extracted for a number of years. The American naturalist, J.W. Audubon, travelled there making sketches of the wild gorges and town. All tokens are nickel and scarce. (See lots 161, 162, 163.)
